CAREER OBJECTIVE

Motivated ICT Applications Development student at Durban University of Technology (DUT) with a strong interest in software development and information technology. I am eager to apply my academic knowledge and practical application-development skills in a professional IT environment while continuing to develop my technical abilities. I have hands-on experience with C#, ASP.NET Core MVC, ASP.NET MVC, SQL, REST APIs, Microsoft Azure, and Azure AI Vision. I am a hardworking, reliable, and adaptable individual with strong problem-solving skills, attention to detail, teamwork abilities, and a willingness to learn from experienced IT professionals.

EDUCATION

Diploma in ICT: Applications Development

Durban University of Technology (DUT)

Student Number: 22435382

Relevant Areas of Study and Development:

- Application Development
- Information Systems
- Database Development
- Object-Oriented Programming
- Web Application Development
- Software Development

National Senior Certificate

Matric

TECHNICAL SKILLS

Programming & Development: C# • .NET • Object-Oriented Programming (OOP) • ASP.NET MVC • ASP.NET Core MVC

Web Technologies: HTML • CSS • Bootstrap • Razor Views

Database & Data: SQL • Database Design • Entity Framework Core • Relational Databases

Cloud & AI: Microsoft Azure • Azure AI Vision • Azure Blob Storage • Cloud Application Deployment

APIs & Development Tools: REST APIs • Microsoft Visual Studio • Git • GitHub

Productivity: Microsoft Word • Microsoft Excel • Microsoft PowerPoint

PROJECT EXPERIENCE

1. IMAGE RECOGNITION SYSTEM

Technologies: C# | ASP.NET Core MVC | Azure AI Vision | Azure Blob Storage | REST APIs | Microsoft Azure

Developed and deployed a web-based image recognition application that allows users to upload images and uses Microsoft Azure AI Vision to analyze uploaded images and generate intelligent tags describing their content.

Live Application

[image recognition app](#)

Key Contributions:

- Developed the application using C# and ASP.NET Core MVC.
- Implemented image upload functionality.
- Integrated Microsoft Azure AI Vision.
- Used Azure Blob Storage to store uploaded images.
- Integrated REST APIs.
- Developed responsive web pages using HTML, CSS, and Bootstrap.

- Worked with application logic, controllers, and services.
- Applied database and software development concepts.
- Debugged and resolved application development issues.
- Deployed the application to Microsoft Azure.

Project: Image Recognition App

2. HOTEL MANAGEMENT SYSTEM

Developed a Hotel Management System as part of my application development experience. The system focuses on supporting hotel-related operations through a web-based application.

Live Application

[Hotel Management system](#)

Project Features / Areas Worked On:

- Hotel management functionality.
- Room-related management.
- Room inspection functionality.
- Application logic and controllers.
- Database-related functionality.
- Web application development.
- User interface development.
- Troubleshooting and debugging.

Technologies: C# | ASP.NET MVC | SQL | Entity Framework Core | HTML | CSS | Bootstrap | Razor Views

3. WEB APPLICATION DEVELOPMENT PROJECTS

Worked on various application-development activities as part of my ICT Applications Development studies, applying concepts including:

- Object-Oriented Programming using C#.
- ASP.NET MVC and ASP.NET Core MVC.
- Database design and SQL.
- Entity Framework Core.
- REST API integration.
- HTML, CSS, Bootstrap, and Razor Views.
- Application logic, controllers, and services.
- Software debugging and troubleshooting.
- Git and GitHub for development.

KEY COMPETENCIES

- Problem Solving
- Software Development
- Database Development
- Analytical Thinking
- Troubleshooting
- Teamwork
- Communication
- Attention to Detail
- Time Management
- Adaptability
- Willingness to Learn
- Ability to Work Under Supervision
- Professionalism
- Reliability

ADDITIONAL INFORMATION

Nationality: South African

Areas of Interest: Information Technology • Software Development • Application Development • Web Development • Database Development • Cloud Computing • Artificial Intelligence
